

Glass fronted  
**NOTICEBOARDS**

# Omega – 4 lines

Omega Systems glass fronted noticeboards are made on the basis of the system of aluminium profiles and highest quality materials, ensuring durability, good looking, functionality and safe using.

Noticeboards are offered in four aesthetical and functional variants.

## Omega **SHARP Line**

Glass fronted noticeboards made of thin and light profiles, perfect for small frames.

Hinges are covered – the front side of a noticeboard is a even plain.

## Omega **SLIM Line**

Noticeboards made of plain, esthetic and universally looking profiles. It's a perfect solution for larger extents.

Strong points of the system are a durable construction and corners connectors jointed at 45 degrees, without plastic elements.

## Omega OVAL Line

Frames of noticeboards are made of elliptical, massive and elegant profiles. Really eye-catching. They are suitable for large rooms and open spaces.

### Construction options

	number of windows: 1		powder coating		side opening window
	number of windows: 2		for indoor use		top opening window
	number of windows: 3		for outdoor use		sliding windows
	bilateral version available		optional lighting		magnetic (steel sheet) fulfillment
	pin tumbler lock		gas cylinders		cork or fabric fulfillment

## Omega CLASSIC Line

Glass fronted noticeboards made of universal, oval profiles. Thanks to a subtle form they can be used in various rooms. Corners of a frame are made from plastic.

# Hanged Glass fronted **noticeboards** Omega **SHARP Line**

Noticeboards made of simple nad light aluminium profiles.  
It` a suitable solution for small format noticeboards.

**Main advantages are covered hinges and a small thickness.**
