QUBE Stands

One frame – many possibilities.

The frame system QUBE is a cutting edge solution for making stalls. Thanks to **light, aluminium construction** it is possible to create and modernize composition in a **convenient way**. All of this thanks to a single frame system, which can be used as a wall of stall, stands, advertising poles, counters, hanged boards or even a supply base.

The system can be **used repeatedly**. The aluminium construction remains the same and only fulfilment is changed.

Lighting is mounted inside the system – it improves visibility and makes fulfillment more attractive.

Info QUBE Stalls

Mobile solutions.

Info QUBE is **set for constructing movable stalls, which are perfect for temporary exhibitions**. It can be applied as:
information points,
advertising points,
mercantile points.

Frames are like puzzles. It's easy to move them. They are light and matching each other. Assembled, they create an ideally integrated connectedness.

It's possible to assemble one stall in **various ways**. Even changing of order of frames impart a new look. And because the system can be used repeatedly, it's only needed to change a fulfillment to get a brand new stall, which can be used during a different event.

Info QUBE frames can be produced in various sizes and adapt to different conditions and ways of transporting.

Just QUBE Advertising Pylons

Simplicity at its best.

Clear form, expressive medium – it's the best way to describe Just QUBE advertising pylons. This way of presentation is suitable for large scale of events, in offices and malls.

Just QUBE Advertising Pylons are available in two variations:

- constructed from separate panels - dismountable, with many modification possibilities.
- constructed from a single panel – discreet and homogeneous in colour.

It's possible to **install boards or canvas with graphics printed on it.**

Simplicity doesn't have to be boring. The Just QUBE advertising pylons varies an information or advertising medium. **Various additional accessories are offered:** shelves for brochures and multimedial equipment, internal and outer lighting systems, steel basis with unrestricted shape.

Quick **QUBE** Panels

Compacted graphics composition.

It's real puzzles. With Quick QUBE possibilities of **a stall arrangement are unlimited**. Due to low weight, quick assembly and ease of modifications it's possible to create a graphically attractive project.

Size of free-standing panels composed of Quick QUBE is unrestricted. They are removable and easy to carry. It's even possible to **carry them in a car trunk**.

Thanks to Quick QUBE your exhibition, event or conference will be more appealing. It's also a **perfect advertising medium in malls, car showrooms and in office blocks**.

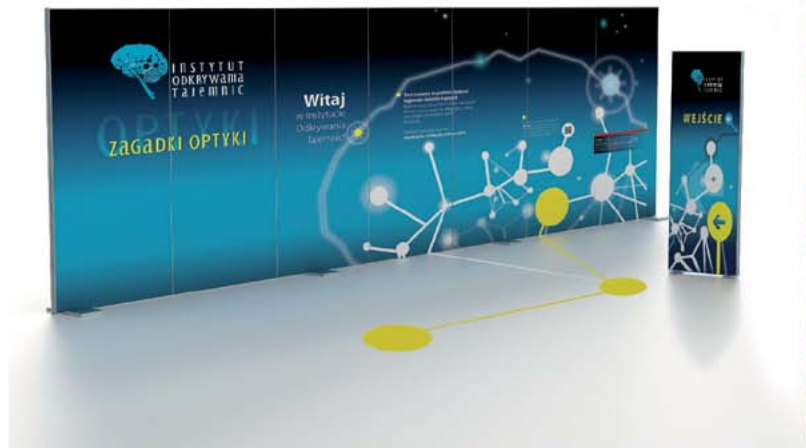

Big QUBE Panels

Advertising in a big way.

Big QUBE panels are large format boards which are **applicative for developing large spaces**. They look good as a background during events or as a partition wall. It's also a suitable solution for scenography in theatres and television productions.

From a structural point of view, the system is clear and easy to assemble. The Big QUBE panels are large aluminium frames with boards or cloths serving as a fulfilment. They are **produced as vertical panels**. Their additional feature is possibility of setting up a sound-absorbing foam.

The Big QUBE panels can be also applied as a room separating screens, connecting a customary separating screen and an advertising medium.

QUBE Musseo Panels

A new face of art.

The QUBE frames system came into the world of art. Frames repleted by graphics can **divide space in museums and exhibitions**. Thanks to clear form, they are a perfect background for the most important matter – works of art.

QUBE Musseo Panels give unlimited possibilities even for most imaginative designers. Using simple frames with a fitted graphics allow to assign visiting paths. At another occasion they would be suitable for separated expositional stalls. **It's possible to contrive certain space in infinite ways** – panels can be simply relocated and adjusted to new exhibitions.

Artworks can be additionally emphasized by using internal or external lighting system. The QUBE Musseo system **includes also Information stands, leaflets stands and information pylons**. Thanks to large amount of elements every cultural institution can find something suitable.

Frames – graphical panels **QUBE**

Dynamic images.

A hanging image becomes boring? **Remove it and replace by another one** – it's really easy thanks to graphical panels QUBE.

Walls in offices, shops and cinemas will gain a new look in a economical way. **It's sufficient to buy frames once, and change only graphical panels in future.** They can create a clear decorative, advertising or informational background.

A bringing attention feature is lighting mounted in panels. It can be adjusted to customers needs.

Panel screens QUBE

In a dentals cabinet and in a boutique.

Hours spent in waiting rooms don't have to be boring, and a dental treatment will be less interperate. It's a main feature of panel screens QUBE. **They are suitable for medical facilities, shops and hairdressing salons.**

A light construction of panel screens allow to relocate them in a quick and simple way. **They can be also set up permanently for dressing rooms in boutiques and fitness clubs.**

First of all, emphasized graphics bring out nature of a room, but they are also **easy to keep clean**. Unprinted boards can be disinfected, so they can be used in various medical facilities.

Stands for leaflets **QUBE**

Small and nice – looking.

The QUBE System is not only a large format panels. We also offer **frames for creating stands to exposing leaflets and promotional materials.**

It's a perfect solution, because the stand acts as a advertising object itself, and a **leaflet is only an addition.** In QUBE frames it's also possible to **install a screen for presenting advertising movies.** It increases interactivity of a medium and makes the advert more interesting.

Size of stands can be changed, and leaflets expositors are adjusted to the size of brochures. **Stands are also an perfect addition** for other QUBE sets.

QUBE Counters

Let's meet together.

A place of meeting with a client it's the most important point of a stand during exhibitions. QUBE panels create background and QUBE Counters are a perfect complement. **It's a good place for a degustation or for situating a front office.**

There are two available versions of QUBE Counters:

- foldable
- closing

Counters are light and convenient in transportation. **Additional, useful equipment is a transport bag.**

Qube Counters are not only light, but also **solid and durable**. It's possible to change a fulfillment, so one counter can be used repeatedly in various events. It's saving of time and money.

Hang **QUBE** Panels

A skyward expression.

QUBE frames can develop all variations of space, also those near a ceiling. Hang QUBE are **hanged, very appealing panels**. Frames can be situated vertically or horizontally. It's possible to split a room into smaller sections. Thanks to horizontal panels, **you can lower a ceiling and set it apart by using astonishing graphics**. You don't have to waste money on expensive renovations any longer.

Hang QUBE Panels can be also successfully **used on exhibitions**. It's a good way to make your stand or product more recognizable.
